

Truth-in-Savings Disclosure

The Truth-in-Savings Act (TIS) is a section of the Federal Deposit Insurance Corporation Improvement Act of 1991. The National Credit Union Administration is charged with enforcing this Act, which applies to all credit unions.

The purpose of TIS is to promote and simplify comparisons among accounts at all financial institutions. TIS enables consumers to make informed choices/comparisons among competing claims of financial institutions by requiring disclosure of the interest rates payable on these accounts and the fees assessable against these accounts.

It is the intent of Greater Iowa Credit Union to maintain compliance with this federal law pertaining to disclosure of the terms and conditions of all savings programs. The following disclosure information illustrates the various savings alternatives available to members of Greater Iowa Credit Union.

The Rate Schedule sets forth certain conditions, rates, fees, and charges applicable to your accounts at Greater Iowa Credit Union. The Rate Schedule (Greater Iowa Credit Union Deposit Rate Sheet) and Fee Schedule (Greater Iowa Credit Union Fee Schedule) are provided in conjunction with this disclosure. If you have any questions regarding any of the accounts offered at Greater Iowa Credit Union, please call a member service representative.

Share Savings Account and Money Market Account

Tiered Fixed Rate Dividend Information: The tiered fixed dividend rate, annual percentage yield and tiered balance ranges may change at any time, as determined by the credit union board of directors at their discretion. See our "Rate Schedule" Disclosure as posted in our lobby and on our website at www.gicu.org/personal/save-spend/deposit-rates for additional information and rates.

Compounding and Crediting: Dividends will be compounded monthly and will be credited to your account monthly. Dividends will be earned daily for each day on which the account balance equals or exceeds the minimum daily balance requirements for this account.

Dividend Period: For this account type, the dividend period is monthly, for example the beginning date of the first dividend period of the calendar year is January 1 through January 31. All other dividend periods follow this same pattern of dates. The dividend declaration date is the last day of the dividend period, and for the example above is January 31. If you close your account prior to payment of a dividend, you will not receive any accrued dividend.

Balance Computation Method: Dividends are calculated by the daily balance method that applies a daily periodic rate to the daily balance in the account for the statement period. The daily balance is determined by adding the full amount of principal in your account each day of the statement period and dividing that figure by the number of days in the period.

Minimum Balance Requirements for Money Market Account(s): The minimum required to open this account is \$2,500.00.
